First time users will login using their account number for the User ID and their account number plus the last four numbers of their tax id number for the Password. As they proceed through, they will be prompted to answer security questions and to change the password. IRP will grant permission to the IRP application.

The AMCS system is an integrated system between the International Registration Plan (IRP) and the International Fuel Tax Agreement (IFTA).

Users have access to only their account.

There is a single login to access your account for either an IRP or an IFTA transaction.

IRP transactions:

- Renewal
- Add vehicle(s)
- Transfer vehicles
- Replace credentials (cab card, license plate or decal)
- Issue 30 temporary operating authority
- Pay for renewal or supplemental application

IFTA transactions:

- Decal renewal
- Request additional decals
- File quarterly tax return
- Pay quarterly taxes if due

The IRP Unit is made up of four areas.

- 1) **Customer Service:** this area of the office assists walk-in customers, processes the applications that are mailed, e-mailed or faxed to the office, processes requests for temporary operating authority and answers calls to the office.
- 2) **Online Section:** this area assists customers who have processed applications online and preps the e-mail applications for processing by the customer service area.
- 3) **Title Section:** IRP processes all titles for the IRP vehicles. Titles are processed in the Motor Vehicle title and registration system, AIRS. The AIRS systems interfaces with the AMCS system for updates regarding titles and apportioned registrations.
- 4) **Audit Section:** IRP has an audit supervisor, three auditors and an analyst. The auditors are responsible for auditing all IRP fleets.

The IRP Unit also processes Unified Carrier Registration (UCR) payments for walk-in customers and those who choose to mail their applications.
